

## INTRODUCING: VIRTUAL PROGRAMS!

## An Innovative New Program For Residents

### WHAT ARE VIRTUAL PROGRAMS?

- They are live and interactive presentations that connect residents face-to-face with interesting people in amazing places through video conferencing.
- Current programs include: connecting with museums around the world, exploring national parks, learning from experts, artists, authors and more!

### LIVE AND INTERACTIVE:

- Residents are face-to-face with the presenters no matter where they are in the world.
- This live interaction makes the experience far different from watching a video or documentary.

### HOW DO THEY WORK?

- Residents gather in front of the big screen TV and the presenter on the screen can see and hear them just as if they were in the same room.
- During every program residents are able to ask questions and speak directly to the presenters.

### HOW OFTEN DO THEY HAPPEN?

- Virtual Programs are scheduled in advance and take place multiple times throughout the year.
- Flyers will be provided to each participating community in advance to inform residents of the date, time, and topic.
- Residents can even invite their friends and family to come and join the fun.
